### Premium Quality and Design

Window World 2000-AS Vinyl Siding delivers the best of both worlds: the classic style of authentic clapboard siding along with the high-performance properties of vinyl. Incorporating premium raw materials, innovative design technology, and manufacturing excellence, each panel is precision-engineered for superb quality and aesthetic appeal.

### Expertly Crafted for Enduring Performance

Window World 2000-AS Vinyl Siding features a strong .044" thick panel with an advanced locking system that increases rigidity so walls stay straight and smooth. Double-staggered nail slots and a double-thick nailing hem provide powerful wall-gripping strength. This impressive panel design delivers superior holding power and has been tested to meet or exceed the ASTM D5206 industry test standard for negative windload resistance.

### Beautiful Appearance

Choose from America's most popular siding styles in traditional Clapboard or beveled-edge Dutch Lap, available in 4" and 5" widths. A natural grain texture, realistic shadow lines, and low-gloss finish recreate the classic appeal of freshly painted wood siding.

### Easy Maintenance

Save time and money without the upkeep that wood requires. Window World 2000-AS siding is made of durable, weather-resistant vinyl, so it won't chip, flake, or blister like painted surfaces and won't warp or rot due to moisture. Just wash it occasionally with water from a garden hose to keep it looking like new.

### Peace of Mind

Backed by a lifetime limited, transferable warranty,\* including fade and hail protection, Window World 2000-AS Vinyl Siding ensures exceptional durability designed for years of enjoyment.

### Color Collection

All colors may not be available in all profiles.

Window World 2000-AS Vinyl Siding is backed by the Good Housekeeping Seal.
